

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Member Services

Membership Fee — \$100

Peninsula Light Company, a Mutual Corporation, is a non-profit organization that is owned by its members and governed by an elected Board of Directors.

All new services must be covered by a membership. The membership fee is refundable, provided there are no outstanding bills, if the member leaves the Company's service area.

Account Set-up Fee — \$15

Re-establishing service for owners of rental properties – No Charge

Account Set-up Fee - PrePay — \$25

Establishing prepay service for owners or tenants.

Prepay Monthly Charge — \$4

This charge is in addition to the regular monthly service fee.

Service Call — \$25

Door tags delivered for Non-Sufficient Funds, past due balances, pending CT disconnects and Membership payments.

Reconnect Fee (Business Hours) — \$100

Reconnects made between the hours of 8:00 am to 4:30 pm, Monday thru Friday. This includes field and remote reconnects.

On-Site Collection — \$100

In lieu of disconnection and in addition to full balance.

Returned Check Charge — \$30

Applied to accounts when a check is returned for "Stop Payment," "Non-Sufficient Funds," or "Account Closed." This fee may also be charged for "declined" credit card payments.

Late Fees — \$10 or 4%

Are based across all classes of service and based on past due balances (over \$10). \$10.00 or 4% whichever is greater.

Meter Tampering Charge — \$250+

Meters that have been tampered with or altered i.e. an unauthorized meter, illegal wiring, or any other device or means utilized to prevent the accurate metering of electric use. This is in addition to re-calculated or pro-rated bills for the estimated unmetered energy. Members will be charged for ALL overhead costs (Time & materials. Fees will escalate incrementally by \$250 for each incident for this consumer.) This includes contractors accessing PLC equipment without authorization.

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Meter Test — No Charge

Members are allowed one meter testing per year, excluding the first year of the meter's life. If the meter tested is found to be fast by more than 2%, the customer's bill will be adjusted and no fee will be charged.

Additional Meter Test — \$100

Members who request an additional meter testing within one year of a previous test will be charged \$100. If the meter is found to be fast by more than 2%, the customer's bill will be adjusted and no fee will be charged.

Opt-Out Charge — \$240

This is a one-time fee to be charged to member at the time the communication module within the meter is disabled, no longer allowing for automatic meter reads (See Opt-out meter reading fee).

Opt-Out Meter Reading — \$100

Manual meter reading fee to be charged monthly to recover costs associated to the Opt-out of automatic meter reading (See Opt-out charge).

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Engineering Services

Residential Engineering Design Deposit — \$500

The Engineering Design Deposit is assessed for jobs more involved than a simple connection from the member's service to an existing adequately sized underground transformer or connection point, and is intended to help recover some of the costs incurred when it is necessary for the engineer to visit the project site, discuss the project details, consult with other utilities or public agencies, and to calculate associated labor and material costs.

Line extension projects, overhead to underground conversions and system relocations shall require detailed cost estimates since costs may vary considerably depending on the extent of the job.

Those requests that require a detailed cost estimate shall first pay the design deposit. The design deposit shall be based on a percentage of the anticipated cost of construction or a minimum flat deposit, and shall be applied toward the final job costs provided full payment is received within 90 days of the estimate date.

Detailed cost estimates are valid for a period of 90 days from the date of the estimate. Additional design deposits shall be required if the 90 days has expired OR if any changes require the project to be redesigned or costs recalculated.

Design deposits are non-refundable: Projects that are not completed within 12 months of initial payment will be terminated and the balance of the Design deposit will be retained by Peninsula Light Company. If a project requires additional time, the customer is required to provide a status update to the Engineering Coordinator every 90 days. Failure to provide two status updates will result in the project being terminated and the balance retained by Peninsula Light Company.

Design Deposits

Single Phase Line Extensions

Project Type	Design Deposit
All primary and secondary extensions	\$500

Short Plats/Subdivisions

# of Lots	Design Deposit
4 Lots	\$800
6 Lots	\$1,200
10 Lots	\$2,000
16 Lots	\$3,200
25 Lots	\$5,000
50 Lots	\$10,000

Note: Design deposit is \$200/lot for all projects of this type.

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Miscellaneous

Project Type	Design Deposit
Relocation – (Pole, TX, etc.)	\$500
Customer Request OH /UG Conversion – (60%/40% Split)	\$1,000 (Project must be PLC justified)
Commercial Projects – (combine the square footage of multiple buildings)	\$1000 – up to 10,000 sq. ft. \$2000 – 10,000 sq. ft. to 50,000 sq. ft. \$3000 – 50,000+ sq. ft.

Note: For canceled projects, deposit amounts paid in excess of actual PLC costs incurred may be refundable on a case by case basis at the discretion of the PLC Engineering department.

Temporary Service Hookup Fee — \$200

Underground Service to an adequately sized transformer or connection point - In addition to the hookup fee, all equipment, conductor, and trenching is the responsibility of the customer.

Overhead Service - In addition to the hookup fee all equipment is the responsibility of the customer. Overhead temporary services are limited to a maximum drop distance of 200 feet. Beyond 200 feet, consult the company for details. Overhead services that require more than a 25' triplex drop from a PLC pole to the temporary service shall be assessed additional charges.

Residential Permanent Service Hookup Fees

Underground service to adequately sized transformer or connection point - In addition to the hookup fee, all conductor, conduit, and trenching is the responsibility of the customer.

Meter	Fee
1 Phase 200 or 320 AMP Self-Contained Meter	\$245
1 Phase 400 or 600 AMP CT Meter (includes meter base, meter labor, test switch)	\$400

Commercial Permanent Service Hookup Fees

Underground service to adequately sized transformer or connection point - Apartment buildings OR commercial projects that utilize a common service cable will pay a hookup fee of \$245.00 for the first self-contained meter. Additional meters for that project will be charged \$125.00 for each self-contained meter connected at the same time as the first meter.

Overhead to Underground Service Conversions - All equipment, conductor, conduit, and trenching is the responsibility of the customer. Peninsula Light Company installs the conduit riser on the power pole at the customer's expense.

Meter	Fee
1 Phase Self-Contained Meter	\$245
1 Phase CT Meter (includes meter base, meter labor, test switch)	\$400
3 Phase Self-Contained Meter	\$245
3 Phase CT Meter (includes meter base, meter labor, test switch)	\$650
Metering with Customer Interface (KYZ pulses)	Quote based on Customer Needs

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Rental Light installation — \$100

Installation of a rental light will be charged \$100 plus the cost of any additional materials that are needed to install and operate a rental light. Rental lights must be installed for a minimum of 1 year. Peninsula Light Company has the option to charge the customer for the removal of a rental light if it is removed prior to the first year.

Trip Fee — \$100

Trip fees shall be charged when the following situations occur:

1. A hook-up is requested by a customer prior to the service connection approval by the State Electrical Inspector.
2. In the event that field assets need to be verified prior to the installation of new/altered equipment (rental lights) a trip fee will be charged.
3. Additional trips are necessary for disconnecting and/or reconnecting temporary services, altered services, or permanent services.
4. Additional trips are necessary to check for trench backfill or service approval.

**All Engineering fees must be paid before any service connections will be made.*

Note: If customers are connecting to a Private Main Line they will also need to pay a proportionate share of repayment. Private Main Line repayments, if any, are in addition to normal Engineering fees and shall be paid prior to hookup.

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Water Services

Water Only Reconnection Fee (Owned Systems) — \$200

Reconnects (non-member) made between the hours of 8:00 am to 4:30 pm, Monday thru Friday. This includes field and remote reconnects.

Water Only Account Set Up Fee — \$15

Re-establishing service for owners of rental properties are at no charge.

Leak Rate Adjustments (Owned Systems) — Charge Varies

If the customer had no knowledge of the leak and agrees to fix it promptly, PLC allows a one-time leak adjustment. Bill will be calculated at standard usage plus difference at lowest tiered rate.

Backflow Testing — \$60

Applicant does not need to be a water customer of PLC; backflow prevention assemblies need to be tested annually by a state-certified Backflow Assembly Tester (BAT). Repair or replacement of assembly will be billed at time/materials (\$95/hr). Backflow Group Rate (Canterwood) \$45.

Individual Well Program — \$15/Month

Annual Contract, Annual Well Check.

- Coliform testing (one resample)
- Preventive maintenance
- Pressure tank flushing
- Pressure tank check and recharge
- Check of electrical controls
- Report mailed to customer

Access to our water technician's emergency response to be billed at composite fee (\$95+time afterhours are billed at a minimum of 2 hours)

Individual Jobs/Trouble Calls — \$95/Hour

Overtime rate apply per employee per hour with a 2-hour minimum.

Water Sampling Fee — Time & Materials, Lab Cost + 20%

Water samples taken by PLC Water staff to be charged time, materials and cost of sample testing.

Water Availability Letter Fee — \$105/\$210

\$105 (no fire flow)/\$210 (with fire flow). Fee is to cover all administrative costs; a field visit may be required to determine gallons per minute for services with fire flow.

SERVICE FEE SCHEDULE – SF-1

Effective November 2019

Operations Services

Meter Replacement Fee — Charge Varies

When tampered/vandalized; cost varies with meter type. Cost of meter plus time and materials (See Meter Tampering Charge; Member Service Fees).

Service Disconnect/Reconnect Fee — \$200 - \$100 same day, subject to an additional \$100 if no visit necessary

Member request disconnect/reconnect to allow for electrical work to be performed (panel work, meter base replacement or repair). Fee will not be charged for disconnect/reconnect for tree/limb removal or storm damage.

Member owned Secondary Cable Fault Locating — \$250

Fee to locate and mark point of cable failure on member owned secondary service cables between PLC source and members meter or final entrance panel.

Member owned direct buried secondary conductor Fault repair, includes L&I permit fees — \$500

Fee to excavate and repair member owned secondary service cables between PLC source and members meter or final entrance panel. Includes L&I permit fees, materials, and labor (Normally requires additional Cable Fault Locating Fee).

All Other PLC Electrical Work on member owned equipment.....PLC's Loaded labor cost plus 12%, actual materials cost, and permit fees.
